JNCIP-M BOOTCAMP

The JNCIP-M - has become the number #1 certification sort by Juniper Elite channel partners and carriers wishing to sell and support the Juniper M & T series routers.

What skills do I need to sit the JNCIP-M lab exam?

Attendance of IJNR, AJNR and Advanced Policy are important along with a good working knowledge of Juniper routers (don't expect to turn up and have us teach you the basics). You'll also need to be a "current holder" of a JNCIS-M certification no exceptions!

How Crystal Echo can help...

We'll stop at nothing to coach, mentor, advise and supply you with valuable lab time... frankly almost anything (except sit the final test for you) to get you effortlessly jumping through the tasks thrown at you during the JNCIP-M lab exam.

So what cost can I expect to pay?

\$4,099 AUD will have you receive the utmost love and attention from our instructors. Oh, and a bunch of other stuff... keep reading...

So for \$4,099 AUD you'll receive the following...

- ◆ 5 day initial ramp up; using the Secret Crystal Echo boots and all approach to get your mind in the JNCIP-M hot seat!
- ◆ We'll bone you up on specific topics we think you should pay particular attention to..
- ◆ We'll discuss the exam objectives, topics, and what to focus on... and then lab after lab after lab after lab – oh yes with the frequent interruption of discussion and whiteboard sessions.
- ◆ Post course completion you'll receive access our online lab outside of scheduled Juniper classes. This will allow you to book and work at your own pace to nail those sticky areas.
- ◆ Now after this - you think you've seen and heard the last of us... no way you are vital to this programs success so we'll give you more lab time leading up to your final practical lab exam.

- ◆ We haven't crafted any special proprietary study guide, we're using the one supplied from Sybex (like everyone else – no surprise!)
- ◆ However our specially crafted labs will be exclusively given to JNCIP-M Bootcamp students which have been designed to hone in on key concepts
- ◆ We'll have you breaking and fixing configurations until your fingers bleed
- ◆ You'll also make some great friends with the same goal as you... to become JNCIP-M certified

...oh, did we forget to mention

* bring your tub of elbow grease as you'll be working harder than our instructors!

Guarantee?

There isn't one, this certification ultimately rests in your hands, we take pride in our results - which is you when you pass. This will help the good word to get out.. you get rich from your certification and so do we by

running many more courses.

So what would the agenda be?

DAY 1

- ◆ Exam topics, areas of focus, accessing the lab
- ◆ Hardware overview and management
- ◆ Juniper documentation and Adobe reader quick navigation controls
- ◆ Interface configuration LAN & WAN
- ◆ VRRP
- ◆ 802.1q
- ◆ Keyboard strokes, configuration short cuts and manipulation pre JUNOS 7.0
- ◆ RIP configuration & caveats
- ◆ Exam preparation, methodologies, mental preparation, covering your steps, getting stuck and unstuck, time allocation, keeping a clear head and staying cool!

Cost AUD (Inc. 10% GST) - 5 days \$4,099

Exam code: CERT-JNCIP-M

Practical exam (hands-on lab)

Held at selected Juniper Networks testing centers and can be paid for with this course (USD\$1,250)

The JNCIP-M is designed to validate the networking professionals' ability to configure and troubleshoot common routing scenarios. Throughout this 8-hour practical exam, candidates will build an ISP consisting of seven M-series routers and multiple EBGP neighbors.

Successful candidates will perform system configuration on all seven routers, install an IGP, a well-designed IBGP, establish connections with all EBGP neighbors as specified, and correctly configure the required routing policies.
